Application form for amateur non-assigned apparatus licence(s)

Instructions

1. You must be qualified before you apply. The Australian Maritime College (AMC) at the University of Tasmania (Tel 1300 852 701) manages the amateur qualifications and call sign allocation on behalf of the ACMA.
2. Applications for apparatus licences are made in accordance with section 99 of the *Radiocommunications Act 1992*.
3. Before filling out this form, please read these general instructions. If you are unsure how to complete any part of the application form, please refer to the guidance notes at the end of this form.
4. **Please print clearly.** Illegible, unclear or incomplete application forms may delay processing or forms may be returned for completion.
5. When filling out the applicant's details, provide the existing or proposed licensee's details, not those of an agent.
6. **Disclosure of personal details:** Information provided by the applicant or authorised representative in a field of this form that is marked with an asterisk (*) is required by section 147 of the Radiocommunications Act to be disclosed to the public by the ACMA in the Register of Radiocommunications Licences. The register is on the ACMA website www.acma.gov.au (search 'Register of Radiocommunications Licences') and is also available for inspection at any ACMA office.

Guidance notes

If these guidance notes do not answer your query, please contact the ACMA's Customer Service Centre (see Section H above).

General information

An amateur licence is issued to authorise a station that:

- > is operated for the purposes of self-training in radiocommunications, intercommunication using radiocommunications, and technical investigation into radiocommunications by people who do so solely with a personal aim and who have no pecuniary interest in the outcome of the operations of the station
- > is operated on amateur frequencies or amateur frequency bands
- > may participate in the amateur-satellite service.

Amateur non-assigned options:

- > Amateur foundation
The foundation licensing option allows restricted operation on the 3.5, 7, 21, 28, 144 and 430 amateur bands.
- > Amateur standard
The standard licensing option allows restricted operation on the 3.5, 7, 14, 21, 28, 52, 144, 430, 1240, 2400 and 5650 MHz amateur bands.
- > Amateur advanced
The advanced licensing option allows operation on all bands allocated to amateurs in Australia.

The remainder of these guidance notes provide section-by-section guidance on the information requested within the application form.

Section C – Customer details

Customer number – If you already have an ACMA customer ID you should provide the number in the box provided. The Customer ID will be quoted on any licence documentation previously sent to you. If you do not have an existing customer ID, the ACMA will allocate you with one when we receive your completed form.

Section E – Station details

Call signs – Call signs are unique combination of letters and numbers allocated to a radiocommunications user to identify a station. The Australian Maritime College (AMC) at the University of Tasmania (Tel 1300 852 701) manages call sign allocation on behalf of the ACMA.

Further information about call signs can be found on the [AMC website](#).
